

Volunteer Registration

Do you want to Volunteer to help with the surveys? We typically survey tidal bass in the fall, Monday – Friday. If that conflicts with your schedule, but you'd still like to help out, there is usually work to be done during summer by aging tidal bass and performing some dissections. In either case, please contact us and we will reply shortly with information on how you can help manage tidal bass populations.

To Volunteer, simply send the following information by email to jlove@dnr.state.md.us, or by printed copy to USPS to Joseph W. Love, Maryland Department of Natural Resources, Division of Inland Fisheries, 580 Taylor Avenue, B-2, Annapolis, MD 21401

Name: _____

Dates of Availability: _____

Current Physical Address: _____

Contact Phone or E-mail: _____

Please list any interests you have or what you would like to do with the tidal bass program.
